NCTS: AESTHETIC INTENSIVE REVITALIZING

Unlock the Beauty Within
NCTS is a virtual mesotherapy cocktail that breathes new life into skin. This innovative blend of rejuvenating nutrients is designed to enhance the skin's radiance, vitality, and overall texture.

At the heart of NCTS lies the advanced formula of Hyaluronic Acid Cube 3®, enriched with a powerful combination of 4 peptides, 24 amino acids, 12 vitamins, and 5 minerals. This dynamic blend encompasses three molecular weights of hyaluronic acid, facilitating deeper penetration and heightened efficacy. The result is visibly improved skin elasticity, a smoother complexion, and a reduction in moisture loss and the appearance of wrinkles.

NCTS is fortified with a range of remarkable ingredients, including the brightening peptides Oligopeptide-34 and Oligopeptide-51, as well as the antioxidant powerhouse Glutathione. Together, these components work harmoniously to brighten and even out skin tone, ensuring a vibrant and radiant complexion.

A standout addition to the NCTS cocktail is Argireline, a BTX-effect peptide renowned for its muscle-relaxing properties. This peptide is an excellent ally in the quest to reduce lines and wrinkles associated with facial expressions.

NCTS goes beyond surface-level skincare; it fosters skin cell production acceleration with the inclusion of ingredients like Oligopeptide-24, Threonine, Phenylalanine, Cystine, Taurine, Folic acid, Biotin, Retinol (vitamin A), Hydroxy Proline, and Proline. These elements contribute to skin rejuvenation and a more youthful appearance.

For a fresher and rejuvenated look, NCTS incorporates additional ingredients, including Glutamine, Lysine, Cyanocobalamin, Cytidine, Guanosine, Aspartic Acid, Ornithine, Nicotinamide Adenine Dinucleotide, Hydroxyproline, Coenzyme A, Uridine, Cytosine, Nicotinic acid, Pyridoxal, and Riboflavin. These elements work together to promote youthful and revitalized skin.

To safeguard skin from the damaging effects of antioxidants, NCTS includes an arsenal of vitamins and amino acids, such as Ascorbic Acid, Asparagine, Methionine, p-Amino Benzoic Acid, Thiamine, and Tocopherol.

Moreover, NCTS addresses the issue of skin aging by combatting cell dehydration. It incorporates vital nutrients like Cholecalciferol, Inositol, and D-panthenol, effectively hydrating the skin and helping it maintain its youthful vigor.

NCTS Virtual Mesotherapy Cocktail isn't just a skincare solution—it's a holistic approach to unveiling the skin's inherent beauty and vitality.

INDICATED FOR
Aging, dull skin with fine lines and wrinkles.

PRESENTATION
5 vials x 10 ml, 50 mL e 1,69 fl oz.

INGREDIENTS
Caprylyl Glycol, Panthenol, Riboflavin, Proline, Thiamide HCl, Biotin, Niacinamide, Sodium Hyaluronate, Tryptophan, Glutamine, Alanine, Arginine, Serine, Lysine HCl, Valine, Leucine, Histidine, Methionine, Threonine, Isoleucine, Phenylalanine, Tyrosine, Aspartic Acid, Glutamic Acid, Cystine, Inositol, Taurine, Glycine.

APPLICATION
Apply on clean and dry skin and massage in until completely absorbed, or via virtual meso, skin needling, transdermal techniques.

FORMULATION
Sterile professional solution, WFI and Osmolarity Balanced.
