

Estilad® NCTS

NCTS is a sterile, treatment solution which restores luminosity to dull and tired skin, brightening and firming the skin, reducing the signs of aging including fine line and wrinkle reduction.

NCTS contains Hyaluronic Acid Cube3® which includes three molecular weights of hyaluronic acid for greater penetration and increased efficacy in improving skin elasticity and skin smoothness, whilst reducing epidermal moisture loss and wrinkle depth.

Cube3® helps regulate tissue repair, improving the firmness of skin and promotes more youthful looking skin.

The cocktail includes SNAP 8® and Leuphasyl®, muscle relaxing BTX effect peptides which reduce the lines and wrinkles which arise due to facial expressions and muscular contraction.

NCTS contains the antioxidant, Glutathione which act to reduce melanin production, brightening and evening out skin tone.

NCTS cocktail includes a number of ingredients which rejuvenate by directly accelerating the production of new skin cells.

In addition, there are many ingredients in this cocktail which further help in facilitating healthy cellular metabolism, signaling and reactions, which results in fresher and younger looking skin.

For skin protection against anti-oxidants that damage cells, NCTS includes a number of powerful vitamins and amino-acids.

Skin aging is exasperated by cell dehydration and NCTS also includes nutrients that help the skin to retain water molecules more easily and hydrate the skin.

Estilad® NCTS is a sterile, professional treatment solution indicated for:

- Dull skin
- Flaccid skin
- Fine lines and wrinkles

CHARACTERISTICS

PRESENTATION

5 vials x 5 ml 0.88 fl oz.

INGREDIENTS

Hyaluronic Acid Cube3®, Glycerin, Glutamine, Mannitol, Potassium Chloride, Sodium phosphate, Alanine, Arginine, Sodium Hydroxide, Cyanocobalamin, Hydroxidecyl Ubiquinone, Serine, Valine, Hydrochloride, Glycine Soja Protein, Sodium Dextran Sulfate, Superoxide Dismutase, Leucine, Histidine, Methionine, Sulfate, Isoleucine, Phenylalanine, Tyrosine, Ethylexylglycerin, Glycine, Potassium Sorbate, Acetyl Cysteine, Aspartic Acid, Calcium Chloride, Hydroxypropyl cyclodextrin, Zinc Gluconate, Glutamic Acid, Sodium Benzoate, Inositol, Taurine, Niacinamide, Pyridoxine HCl, Proline, Acetyl Octapeptide-3, Hexapeptide-10, Folic Acid, Thiamine HCl, Troxerutin, Panthenol, Acetylarginyltryptophyl Diphenylglycine, Riboflavin.

APPLICATION

Apply on clean and dry skin and massage in until completely absorbed, or via virtual meso, skin needling, transdermal techniques.

FORMULATION

Sterile professional solution, WFI and Osmolarity Balanced.
