

Estilad[®] Artichoke

Artichoke is a professional treatment solution used to reduce localised adiposity and for the reduction of all stages of cellulite.

Artichoke extract (Cynara Scolymus) has lipolytic properties that encourage the synthesis of coenzymes NAD-NADH₂ and NAP-NADPH₂ which are involved in anabolic processes, reducing adipose tissue and in fatty acid synthesis.

Artichoke has a choleric effect, increasing bile secretion and acting on the anti-toxic and glycogenic function of the liver thanks to its main ingredient, Cinarina.

Artichoke also has an effect on kidney and urea metabolism, increasing urine output.

Artichoke extract it is a source of Vitamins A, B, and C, along with key nutrients like fiber, Potassium, Magnesium, Chromium, Calcium, Zinc, and Iron.

Additionally, the Artichoke Extract contains a large amount of phytonutrients and antioxidants which are beneficial to many physiological processes.

Estilad[®] Artichoke is a sterile, professional treatment solutions indicated for:

- Cellulite affected skin
- Adiposity reduction

CHARACTERISTICS

PRESENTATION

10 ampoules x 5 ml, 50 mL e 1,69 fl oz.
