

Estilad[®] Cellupro

Cellupro is a sterile professional treatment cocktail that combines proven and efficacious nutrients that improve the cellulite condition and its associated aspects.

Cellupro ingredients are selected to improve the specific problems common to cellulite affected tissue, nutrients including Carnitine, Organic Silanol, Caffeine, Centella Asiática Leaf Extract.

L-Carnitine, often referred to as the fat metabolizer, acts as a physiological carrier, transporting fatty acid across the mitochondrial membrane for oxidation, and thereby reducing cytoplasmic bioavailability of activated fatty acids.

Organic Silanol is a biological metalloid common in mineral and organic compounds. It activates the intra-adipose effect on cAMP, stimulating lipolysis and hydrolysis of triglycerides without affect cell metabolism. It is a structural element of connective tissue forming part of the macromolecules including elastin, collagen, proteoglycans and glycoproteins. Silanol also plays a role in regulating cell metabolism and division.

Caffeine acts directly on adipose cells, promoting lipolysis, inhibiting phosphodiesterase, and thus augmenting cyclic AMP. It activates the triglyceride lipase enzyme and breaks down triglycerides into free acids and glycerol. Caffeine also has a stimulating effect on the cutaneous microcirculation.

Centella Asiatica (Gotu Kola) which has a wide range of benefits including stimulating lipolysis, enhancing lymphatic drainage, protecting capillaries and blood vessels, and improving the production of collagen with a skin firming action.

Estilad[®] Cellupro is a sterile, professional treatment solutions indicated for:

- Cellulite affected skin.

CHARACTERISTICS

PRESENTATION

Meso cocktail solution
5 Vials x 10 ml, 50 mL e
1,69 fl oz.

INGREDIENTS

Carnitine, Organic Silanol,
Caffeine, Centella Asiática
Leaf Extract.

APPLICATION

Apply on clean and dry skin and massage in until completely absorbed, or via virtual meso, skin needling, transdermal techniques.

FORMULATION

Sterile professional solution,
WFI and Osmolarity Balanced.
