

# Estilad® Whitening 1500

**Whitening 1500 is a professional, sterile treatment solution especially formulated to reduce pigmentation patches and even out skin tone.**

Whitening 1500 helps to boost skin luminosity and combat age related changes in the skin and contains powerful antioxidants and skin boosters including Glutathione 1500mg, Ascorbic Acid, and Hyaluronic Acid Cube 3®.

Whitening 1500 is a professional, sterile solution especially formulated to reduce pigmentation patches, age spots and even out skin tone.

Whitening 1500 helps to boost skin luminosity and combat age related changes in the skin and contains powerful antioxidants and skin boosters.

Glutathione (1500mg) is a potent antioxidant which interrupts the tyrosinase process, regulating melanogenesis and the formation of pigment. It further helps prevent damage to important cellular components caused by reactive oxygen such as free radicals, peroxides, lipid peroxides, and heavy metals.

Ascorbic Acid, also a potent antioxidant, stimulates collagen synthesis and is an important catalyst for all metabolic processes. It inactivates and mediates the tyrosinase enzyme.

Whitening also contains Hyaluronic Acid Cube 3® which is comprised of three molecular weights of hyaluronic acid, allowing for greater penetration into skin tissue and increased efficacy, improving skin elasticity and skin smoothness, reducing epidermal moisture loss and wrinkle depth.

Cube 3® helps regulate tissue repair, improving the firmness of skin and promotes more youthful looking skin.

**Estilad® Whitening 1500** is a sterile, professional treatment solution indicated for:

- Pigmented skin and age spots
- Uneven skin tone
- Dull skin

## CHARACTERISTICS

### PRESENTATION

5 vials x 5 ml, 25 mL e
