

ROSY cocktail is a sterile cosmetic solution meticulously formulated to rejuvenate and restore the delicate skin of the lips. This specialized blend goes beyond the surface, delving deep to rebuild and repair the skin's natural barrier in areas that have experienced damage.

One of its remarkable features is its potent antioxidant power. This formidable defense guards the lips against the harmful effects of free radicals, promoting a healthier, more luscious, and naturally pinkish appearance. By shielding the delicate lip skin from oxidative stress, this cocktail contributes to a revitalized and youthful look.

The inclusion of non-crosslinked Hyaluronic Acid (HA) is a key component, and it performs a dual role. It not only replenishes vital hydration but also imparts elasticity to the lip skin. As a result, lips are not only more supple and well-moisturized but also resilient and youthful.

Turmeric and Vitamin C take center stage as powerful antioxidants within this cocktail. Beyond their protective benefits, they actively stimulate collagen production, a vital protein responsible for the skin's structure and firmness. Collagen, in abundance, leads to the much-coveted luminous effect, making lips naturally radiant and appealing.

Furthermore, Ginkgo Biloba, known for its remarkable properties, plays an integral role in this cocktail. It contributes to the rejuvenation of lips, bestowing them with a more youthful and smoother appearance. By enhancing microcirculation, Ginkgo Biloba ensures that your lips receive the nourishment and vitality they deserve.

In summary, ROSY cocktail is a comprehensive solution that goes the extra mile to transform lips. Its antioxidant prowess, coupled with the rejuvenating properties of non-crosslinked HA, Turmeric, Vitamin C, and Ginkgo Biloba, results in lips that exude health, vibrancy, and a captivating natural pinkish glow.

## INDICATED FOR

Dry, dull or skin barrier compromised lips.

## PRESENTATION

5 vials x 5 ml, 25 mL e 0,88 fl oz.

## INGREDIENTS
